In these times, many of us are asking how practice helps us, how does practice help the world?

Join us for a training workshop in the practices and life-sustaining work of deep time. Deep time, being time, is a foundational aspect of the illuminating work by Joanna Macy of reconnecting to life, and building a life-sustaining society.

The training workshop includes guided work on deep time, training principles, and teisho.

Kristin Masters, an associate of Joanna Macy, is a certified teacher in nonviolent communication ([Kristin Masters](#)) Gene Bush and Dana Takagi are priests at Santa Cruz Zen Center.
